Dear Commissioners,

South Carolina needs a way to move forward from the V.C. Summer challenge. I believe the way to do this is to support the merger between Dominion Energy and SCANA.

Dominion has a real plan to deal with the costs of the failed project. Their plan makes more sense to me as a customer than a temporary rate reduction forced onto SCANA. Dominion energy will absorb costs, return a percentage of the nuclear costs to customers, as well as guarantee a rate reduction.

I welcome the merger so that South Carolinian electric customers can move forward with a plan that will benefit us for a long time.

Paul F. Mc Cowan
Sincerely,

Beaufort, SC 29906

Dear Public Service Commission

South Carolina confronts a crisis that threatens the energy security of our citizens, as well as the health of our state's economy. I believe South Carolina has a clear way to avoid crisis and ensure that our state's electric and gas customers have excellent service and affordable pricing in the future. That solution is the proposed combination of Dominion Energy and SCANA. It will end the uncertainty that poses a threat to our economic growth.

Dominion Energy's proposal includes immediate and long term relief in the form of \$1.3 billion in cash payments to homes, businesses, churches, schools, local governments and other customers served by SCE&G.

Customers would also see an immediate electric rate reduction of at least 7 percent. Dominion Energy would absorb more than \$1.7 billion of the remaining V.C. Summer debt and reduce the current timeframe for cost recovery by forty years. This is the best proposal and path forward for South Carolina.

Thank you for the opportunity to share my support.

Rachelle Delaney
